Rear Heat Shield Fitting Instructions

3. Fitting Procedure

Before starting this process, please ensure that the stove is cold and unlit

Step 1 : Working on the rear of the appliance, loosen the 2x screws (DO NOT REMOVE), as indicated in figure 1.

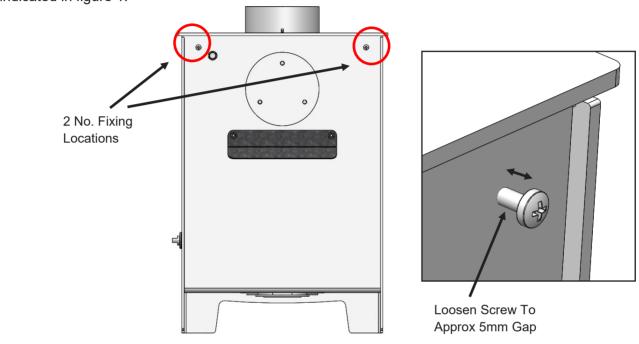

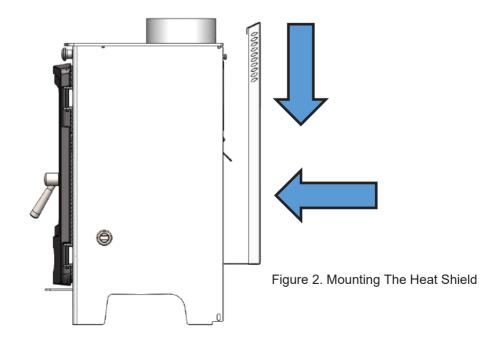

Figure 1. Fixing Locations

Step 2: Lower & position the heat shield onto the 2no. protruding screws (See Fig. 2 & 3). If the stove installation requires a rear flue, the matching section of the shield can be knocked out.
